Why Robert Clarke and NGI Broker Services?

- Providing insurance coverage is really only a small part of the overall process. The NGI team provides an outside-the-box perspective for Agents, business owners and executives, based upon our professional background in insurance and business. We've found that insurance premiums are based upon a number of controllable variables. During the Risk Management and Assessment process that we provide, our team helps Agents and businesses to not only identify these variables, but also to develop measurable strategies to control them. The end result is a tailored insurance program that provides both creativity and uniquely controlled premium costs.
- We take a very aggressive and strong approach when negotiating premium, underwriting cases and processing claims. Our business is built upon providing unprecedented service and accessibility to our clients. We are available during the day, evenings, and weekends.
- NGI has a proven track record of success, with an over 95% renewal rate. Our clients, in general, have sophisticated insurance needs, which we consistently address with foresight, logic, and tenacity.
